

6-22-99

Dear Michael A. Friedman 11:30

The reason why I'm writing you this letter is to let you know, that what you are doing with those animals is so "cruel".

Stop the cruelty and obsolete Animal testing. What you guys are doing is really bad.

STOP -- STOP -- The Animal testing... Please.

I really think that this is cruel and very inhumain to use these animals for your studies, Why are taking advantage of these poor animals? You should try to fest on your self, and try to feel the pain these animals are feeling.

Animals also have feelings and they feel these pain also. So, I hope this letter gets to you and you realize that what you are doing is really bad and cruel.

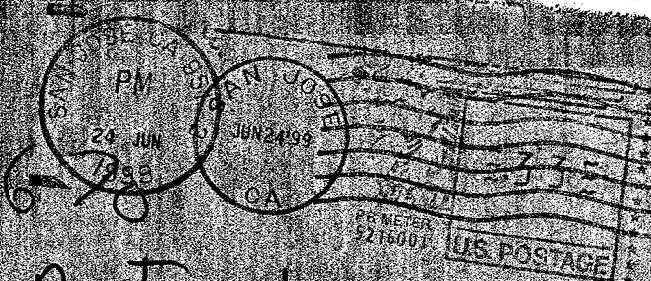

Sincerely, C1791  
Someone that care  
for Animals.
